

GIA Engagement Policy – Summary of content by section

	Title	Content Summary
Sections	Introduction, Audience and Intended Use, Review, Enquiries	Scene setting
	Biosecurity in New Zealand: An Overview	2-page overview of NZ biosecurity system, roles and responsibilities, and plans for strengthening (Biosecurity 2025) <i>To be reviewed and updated following release of the final Biosecurity 2025 Directions Statement. Alternatively could be deleted and replaced with a link to the final Biosecurity 2025 Direction Statement.</i>
	Engagement across the biosecurity system under GIA	2.5-page narrative. Explains relevance of each of the Appendices. Discusses MPI obligations as regulator and competent authority and what this means for engagement
Appendices	A1 - NZ's Biosecurity System	1-page representation of NZ's biosecurity system – as presented in draft Biosecurity 2025 Direction Statement
	A2 -Key responsibilities for biosecurity in MPI	1-page representation of MPI organisation chart, showing where key responsibilities for biosecurity lie. <i>To be updated and 'polished' following MPI Operations branch refinement.</i>
	A3 - GIA Engagement Spectrum	1-page diagram explaining engagement terms (Inform, Network, Cooperate, Collaborate, Partner)
	A4 -Outcomes and Principles	Outcomes and principles for engagement - proposed by MPI-industry JWG and refined by sub-group
	A5 - GIA partner biosecurity system activities and engagement opportunities	Tables summarizing key activities undertaken by Partners in each layer of the biosecurity system, and engagement expectations for each. Table one presents a high level summary. Table two contains a more detailed breakdown by layer. <i>Developed in consultation with MPI –industry representatives and senior leaders. DGG to take responsibility for updating the tables to better reflect industry-led activities. The explanatory text in the Comments field can be updated over time as information needs are better understood, and to meet these requirements.</i>
	A6 – Template for sector specific biosecurity system activities	A template to help MPI and industry Partners identify specific biosecurity activities or issues of relevance to their sectors, as an input into annual bi-lateral between MPI and each industry Partner discussions.
	A7 – Key biosecurity fora relevant to GIA Partners	Summary information (including links to TOR and key contacts) for key fora of relevance to GIA partners
